

E-Waste management

Toll Free Number: 18001032712

Introduction

E-waste is a popular, informal name for electronic products nearing the end of their “useful life.” Mobile Phones, Smart Phones, Feature phone, I Phones, Laptop, Desktop, Thin Clients, Air Conditioners, Televisions, Refrigerators, Washing Machines, VCDs, stereos, copiers, and fax machines are common electronic products. Many of these products can be reused, refurbished, or recycled.

E-waste has been one of the fastest growing waste streams in the world. While e-waste contains valuable materials such as aluminium, copper, gold, palladium and silver, it also contains harmful substances like cadmium, lead and mercury. In the absence of proper awareness, disposing e-waste in landfill can result in toxic emissions to the air, water and soil and pose a serious health and environmental hazards.

Under the guidelines of the Ministry of Environment, Forest and Climate Change, Government of India, E-Waste (Management) Rules, 2016 and SHIJI (INDIA) LLP stands committed to implement E-Waste Rules.

We, SHIJI (INDIA) LLP understand there is a need to encourage recycling of all useful and valuable material from e-waste so as to conserve the ever depleting natural resources. Recycling end-of-life discarded products is vital if we are to save resources and minimize landfill SHIJI (INDIA) LLP understands its responsibility and in this regards we have tied-up with one of the leading and authorised e-waste recycler namely NIRVANA RECYCLING PVT. LTD. for facilitating our customers to enable them to dispose of e-waste products after its end-of-life.

NIRVANA RECYCLING PVT. LTD. one of the renowned recycler is pioneer of recycling the e-waste in the most organized manner in India. Authorized by CPCB (Central Pollution Control Board) and HSPCB (Haryana State Pollution Control Board) and are committed towards Environmental Social & Corporate Governance. They have expertise in assisting Producers in fulfilling their compliances related to EPR and E-waste Management.

BENEFIT OF RECYCLING OF E-WASTE

- E-waste contains many valuable, recoverable materials such as aluminum, copper, gold, silver, plastics, and ferrous metals. In order to conserve natural resources and the energy needed to produce new electronic equipment from virgin resources, electronic equipment can be refurbished, reused, and recycled instead of being land filled.
- E-waste also contains toxic and hazardous materials including mercury, lead, cadmium, beryllium, chromium, and chemical flame retardants, which have the potential to leach into our soil and water.
- Protects your surroundings- Safe recycling of outdated electronics promotes sound management of toxic chemicals such as lead and mercury.
- Conserves natural resources- Recycling recovers valuable materials from old electronics that can be used to make new products. As a result, we save energy, reduce pollution, reduce greenhouse gas emissions, and save resources by extracting fewer raw materials from the earth.
- Helps others - Donating your used electronics benefits your community by passing on ready-to-use or refurbished equipment to those who need it.
- Saves landfill space - E-waste is a growing waste stream. By recycling these items, landfill space is conserved.

RECYCLING OF E-WASTE

The company has tied -up with the M/S NIRVANA RECYCLING PVT. LTD. For collection of all our E-waste on PAN India and disposes the same at their plant at D-6, Udyog Vihar Phase-6, Sector-37, HSIIDC, Gurgaon, Haryana-22001 Customer can reach or call on Toll Free No 18001032712. Our representatives explain them about process of disposal and make them aware about nearest drop point available to drop the e-waste also give information about incentive we will offer to them against their end of life product. If any customer wants to handover the material from their door steps, we do send either our logistics team or M/S NIRVANA RECYCLING PVT. LTD. team to collect the items and channelize the same to our e-waste partner plant for final processing.

DOS & DON'TS

Do's:

- Always look for information on the catalogue for end-of-life equipment handling.
- Ensure that only Authorized Recyclers repair and handle your electronic products.
- Always call our E-waste Authorized Collection Centres/points to dispose products that have reached end-of life.
- Always drop your used electronic products, batteries or any accessories when they reach the end of their life at your nearest Authorized E-Waste Collection Centres/Points.
- Always disconnect the battery from product, and ensure any glass surface is protected against breakage.

Dont's:

- Do not dismantle your electronic Products on your own
- Do not throw electronics in bins having "Do not Dispose" sign.
- Do not give e-waste to informal (Kabba-di) and unorganized sectors like Local Scrap Dealer/ Rag Pickers.
- Do not dispose your product in garbage bins along with municipal waste that ultimately reaches landfills.

E-WASTE RECYCLING & COLLECTION MECHANISM FOR CONSUMER

As per the E-waste Regulation under E-waste (Management) Rule, 2016 and SHIJI (INDIA) LLP being a good corporate citizen understands the responsibility towards environment and thus following the mechanism for collection of e-waste and channelizing it for safe recycling:
